

# Halifax Public Gardens, Halifax Nova Scotia

**GBCL**

*Building Strong Communities*

Formally established in 1867, the Halifax Public Gardens is a Canadian National Historic site. When the tender came out requesting proposals to restore the original Horticultural Hall and build 3 new buildings onsite; GBCL wanted to be part of the project. Our thanks go out to the staff at HRM, Vollick McKee Petersmann, G.F. Duffus and Company, all the staff at the Public Gardens and The Friends of the Public Gardens for making this a landmark project.
